Annuity Benefit Adjustments Old State Teachers Retirement System Fixed Dividends

Explanation: ARF = Annuity Reserve Fund
 CF = Contingent Fund
 EX SAF = Extra State Accumulation Fund
 SB = Supplemental Benefit – 1971 Statutes

Dividends on a money purchase benefit were always payable. Other plans calculated the dividend on the benefit paid from ARF and when the accumulated dividends exceeded the benefit provided by CF or EX SAF, the excess was payable to the annuitant. Under three plans (140% Average Salary, \$2 Plan, and 50% Formula) the dividend on the benefit provided by required deposits was always payable. The ST board members determined that the state (employer) was entitled to the dividends paid from the reserve surplus until they exceeded the portion of the benefit provided by the state's contribution.

Date Paid	Effective Date of Dividend	Dividend %	Conditions
	6/1/54	4.5%	Only those 15 Year Life (180 months) annuities that began 1/1/42 through 6/1/54 were eligible. Based on gross amount from ARF <u>and</u> CF. Actually was a rate adjustment but was processed as a dividend.
			All annuities that began:
	4/1/57	1.5%	Prior to 7/1/56.
	1/1/62	6%	Prior to 7/1/61.
	4/1/65	8%	Prior to 7/1/64.
The 1967 and 1970 dividends reduced the SB by <u>any</u> payable amount determined from the previous calculation.			
	7/1/67	8.5%	Prior to 7/1/66.
		1.25%	7/1/66 through 6/1/67.
	12/1/70	7.30%	Prior to 7/1/67.
		5.55%	7/1/67 through 6/1/68.
		3.70%	7/1/68 through 6/1/69.
		1.85%	7/1/69 through 6/1/70.

Annuitants' Earnings Limitation Indexing History

The merger bill (Chapter 96, Laws of 1981), which became effective January 1, 1982, provided for annual indexing of the earnings limitation for retirement and disability benefits paid to retired employees. (There is no earnings limit on a benefit paid to the beneficiary of a deceased employee or to a 62.13 annuitant.) Prior to 1982, the earnings limitation remained unchanged from the beginning date of the benefit throughout the employee's retirement.

Effective Date	Index Factor	Month/Year New Limit Appeared On Annuity Fiche
1/1/82	5%	10/82 Retirement (type 20): Prior limit increased by 5%, if annuity began prior to 1/1/82. Disability (type 21): Loaded \$3,600 to all records.
1/1/83	5%	1/83 (Disability = \$3,780)
1/1/84	7%	1/84 (Disability = \$4,044)
	5%	6/84 ETF Rule 10.01 (3w) increased limit on <u>retirement</u> benefits for each full year (January 1- December 31) from the beginning date to 1/1/82. Example: Annuity began 12/1/76. Earnings limit presently on Annuity File record is \$6,000.
		1/1/77 6000 x 1.05 = 6300
		1/1/78 6300 x 1.05 = 6615
		1/1/79 6615 x 1.05 = 6946
		1/1/80 6946 x 1.05 = 7293
		1/1/81 7293 x 1.05 = 7657
		New earnings limit = \$7,657
7/1/84	1.2%	7/84 (Not a percent) 1983 Wisconsin Act 255 applied 1.2% adjustment to every <u>retirement</u> record on the Annuity File as of July 1984. Adjustment was included in limit on records added to Annuity File 8/84 and later.
